

# Hangzhou Risingsun Cable Co., Ltd

## Item RG6 Quad Shielded Coaxial Patch Cable With Compression Connector

High performance RG6 cable (also refer to as RG6/U cable) for connecting a cable television (CATV), VCR, satellite receiver, cable box, digital router, cable modem, antenna, or other devices with RG6 F-type coaxial (RG6 F-pin coaxial) port

Quad shielded RG6 coax cable is the perfect choice for DirectTV and Dish Network systems at up to 3 GHz Convenient and this TV cable provide spare or replacement digital coaxial cables for different systems. Low profile metallic connectors ensure a secure connection and increase durability

Heavy quad-shielding consists of four layers of aluminum foil and braid shielding against electromagnetic interference (EMI) and radio frequency interference (RFI)

RG6 coaxial cable has durable and flexible PVC jacket which complies with the CM rating for the fire safety requirements

**Packing** Slide Card Blister/Plastis Bag/Reel

**Remarks** OEM/ODM are welcomed
